

Navigating the Common Core State Standards (Language Arts/Literacy in the Content Areas)

Anne Diskin

PRACTICAL, UPLIFTING PROFESSIONAL DEVELOPMENT!

Teachers need support as they are called on to significantly increase rigor in instruction. Anne helps teachers draw on their strengths to implement the standards across grade levels and content areas. **She provides practical, concrete tools and strategies for cognitively demanding work in reading, writing, and speaking.**

Let Anne be your guide as you:

- Get to the "core of the core." What's most important? Which resources do we use?
- "Amp up" what you're already doing.
- Develop best practices, lessons, units, and projects that incorporate the standards.
- Figure out how to assess student proficiency.

Anne can design a customized professional development plan for your school that can include workshops, grade level collaboration, demonstrations, and/or coaching.

Anne Diskin is an experienced, exceptional language arts professional developer and coach. Educators across the United States praise her for her deep knowledge, engaging and respectful presentations, and practical strategies.
